Migration

Medium to long-distance migrant. Most Ruby-throated Hummingbirds spend the winter in Central America, and most get there by flying across the Gulf of Mexico. Some birds stay in North America along the Gulf Coast, parts of the southern Atlantic coast, and at the tip of Florida; these are usually birds from farther north rather than birds that spent the summer there.

News

Summer tours are filling fast. Two June tours are nearly closed. Two August tours are accepting birders to chase shorebirds, pelagic species, and northern forest birds. Experience shearwaters, phalaropes, storm-petrels, gannets, and jaegers, plus wandering puffins and

Atlantic Puffins

There are five puffin colonies along the Maine coast, each with a differing mix of sought-after birds, including Common Murres, Razorbills, Black Guillemots, Great Cormorants, and Roseate Terns.

[Read More](#)

Tours

Maine is a major tour destination. Several tours are anchored at Acadia National Park's Schoodic Institute, with excursions into the wilder parts of Maine. Puffins, Spruce Grouse, Black-backed Woodpeckers...

[Read More](#)

Festivals

Maine is home to three multi-day birding festivals when songbirds are in full voice. Each is unique. All offer puffins. It's hard to top the extraordinary birding found only along the rockbound coast of Maine.

June

Field Trip: Cathance River Preserve, Topsham

- Saturday, Jun 9, 2018 7:00am - 11:00am
- **Location:** Highland Green golf course

We will walk the trails looking for Towhees, sparrows, warblers, woodpeckers, and other birds. Wildflowers, ferns, and mosses grow in the moist woods by the river.

Take Rte. 196 and turn into the Highland Green Community on the north side of the highway. Drive in about 1/2 mile and meet in the parking lot of the golf course, on the left, at 7:00 a.m.

FMI Andrew Gilbert at 329-7525.

Field Trip: Brunswick Landing

- Sunday, Jun 10, 2018 6:30am - 11:00am
- **Location:** End of Pine St., Brunswick
- Gordon Smith
